### ***Save our water, soil and air from invasive mining & industrial gasfields***

This Alliance was formed due to concerns that if inappropriate oil, gas and mining activities were to encroach upon prime agricultural land such as the Limestone Coast of SA, it could have detrimental effects on our groundwater, land, businesses, tourism, health (people, livestock, pets & wildlife) and devastating economic impacts on our communities. Coastal oil and gas developments would put our marine areas and fisheries at risk. We therefore aim to promote awareness and better understanding of these effects, and to campaign to protect our region from invasive mining and industrial oil and gasfields.
